Easily create professional diagrams

Visio lets you easily create flowcharts, task networks, flowcharts, floor plans, technical designs and more using modern shapes and designs, thanks to the familiar Office experience.

Collaborate with other users and easily share diagrams

Visio allows you to collaborate on diagrams to include data from all stakeholders. And with Office 365, multiple team members can now save time by working simultaneously on a single Visio diagram.

Connect your diagrams to real-time data for faster decision-making

Communicate real-time data with a concrete visual. Link your shapes and diagrams to reliable source files and, with formatting applied to shapes, automatically update them to reflect changes in the underlying data, either in Visio or through Office applications and services 365.

Create and share diagrams in your favorite browser with Visio Online

Whether you want to recreate a flowchart, map a computer network, design a flowchart, or describe a business process, Visio Online helps you work visually anywhere, allowing your team to view or comment on diagrams via a web browser.
